

It has come to my attention that you plan to possible remove AIR 1 and KLOVE radio stations and replace them

My family listen to both stations. I listen to KLOVE and my preteen kids listen to AIR 1. We are all richly touched by each station. It has helped my kids keep away from music full of hate, sex and drugs and gives us all something positive and uplifting to listen too.

If we do loose these stations we will have no other choice on the radio, opening up doors to my kids lives that I would like to keep closed until they are much older.

I truely believe in the service this radio station has given. I have been helped personally by the music, prayers offered on my behalf and support the personell have given me an my family.
